

STATE-OF-THE-ART

Videomax has deployed the finest equipment available to power our video editing operations. Each computer system is custom specified and hand built by our own personnel. Video editing, graphics creation, animation and visual effects processing require serious horsepower. Over the years, we have perfected our infrastructure to include the cutting edge tools necessary to allow for limitless creativity. This enables Videomax to consistently produce media products of the highest quality. Our high speed computer network and internet, allows for fast and convenient upload/download of files and digital assets.

TALENTED PERSONNEL

The Videomax team is made up of seasoned professionals. Our editors and design artists come from many areas of the entertainment industry. Their cumulative talents and experience is unmatched in this arena. If you are looking for the best of the best, look no further. Our people will work hard to make your project a success.
