

Greetings,

Good business is all about connections. The World has become high-tech and we are all "Wireless and Mobile". The ability to communicate or share information effectively is more important than ever. The digital age has brought fantastic innovations. Goods and services can be ordered with the click of a mouse or a tap on your phone. More and more people are conducting business online rather than face to face. Today when you call most companies you talk to a machine, or at best, a call center in a far away land. Have you ever wondered what happened to good old fashioned personal service? Well rest assured, it still exists at Videomax Productions. That's because Videomax is made up of talented people who understand good customer service. Personal relationships and attention to detail has set Videomax apart from the crowd.

I would like to take this opportunity to introduce myself and my company. I have been involved in video production since I was 17 years old. I grew up with video technology and evolved with it. In addition to operating Videomax, I personally enjoy a parallel career working in the professional broadcast industry. Currently, I work at FOX4 News KDFW-TV Dallas. That would be channel-4 on your dial in the DFW Metroplex. I started my career at Eyewitness News KABC-TV in Los Angeles. I worked there for approximately 10 years. Among my many achievements, is an Emmy Award for my camera work at ABC. I then worked my way up to the NBC Television Network. There, I spent 5 years creating daily episodes of the "Access Hollywood" TV Show and bringing it to viewers all across the United States and the World. I guess you could say that during my combined experiences, I have learned a few things about video production. It is based on that practical experience that Videomax Productions continues to achieve and evolve.

To date, Videomax has produced literally thousands of hours of content for broadcast, corporate, government and web clients. Our business ethic and dedication enable us to offer high quality products and services at reasonable prices. Our staff is made up of seasoned professionals. I am confident that in reviewing our experience, you will find that we could meet your needs both now and into the future. I invite you to view our web site at www.videomax.net to learn more about Videomax and see samples of our work product. Should you have questions about me or Videomax, please feel free to call. I promise that when you call our company, you will be able to speak directly to a helpful and courteous human being. If for some reason you must leave us a message, someone will call you back in a timely manner. Thank you for your interest in Videomax Productions and we look forward to earning your business.

Best regards,

Michael Kamm
President & CEO
